AUTUMN
WINTER
2018

WHO ARE WE?

Infusing clothes with a little extra spirit and accompanying children for milestones in their life — because you only ever have one childhood — is the creed the brand has been **defending with handmade pieces since 2009**.

Each piece in the collection is embellished, either by touches or without restraint, with embroidery, smocking or handmade appliqués, an approach that makes each style unique and exclusive.

The mother/daughter duo behind Kidiwi composes collections with a **poetic, nostalgic and timeless spirit that always feels right for today and upholds a certain understanding of French chic**.

A favorite among royal families and a clientele in search of authenticity, Kidiwi continues to conquer the world ; its recent arrival in the Middle East rounds out its panel of 200 distributors around the world.

THE SPIRIT OF THE NEW COLLECTION AUTUMN/WINTER 2018

Yes we can love winter! Yes the weather is cold, grey, windy, but **if we open our eyes, there are plenty of treasures around us**. Kids understood that. Outside, they delight in collecting pinecones, picking up twigs, watching the trees dance and jumping in a pile of golden leaves... There are also these magic moments at the end of the year, where they have the heart in celebration, because Santa Claus is coming to town!

It is throughout this **winter walk** that we have built our collection.

Inspired by this autumn/winter color palette, for girls, we designed sumptuous dresses; for boys, there are impeccably cut suits. **The indispensable Hermes red velvet is mixed with gray and saffron**. We also venture this season into large, **romantic prints** in cobalt blue and coral digital print, velvet with a paisley print and **sequined tulle** for a touch of magic.

In counterpoint, **a nude pink and vintage palette with pearl gray gives the collection a soft touch**.

Gold and bronze buttons give the collection a chic finish.

Come take this walk with us :)
